2 VALUATION, BOOK BUILDING PROCEDURE AND SHARE CAPITAL

2.1 VALUATION SECTION

The Ordinary shares of AGPL are being offered at Floor Price of PKR 80/- per share which is at a premium of PKR 70/- per Share to the face value of PKR 10.00 per Share. The Consultant to the Offer has reviewed the business performance of the Company and in their opinion the Floor Price of PKR 80 per share is justified based on the following:

2.1.1 Strong Growth in Sales

Sales have grown at a 5-year CAGR of 11.7%. Since the business is acquired by OBS led consortium, sales has increased from PKR 3,338 mn in 2014 to PKR 4,206 mn in 2016, which shows a growth of 12.2% p.a. Sales growth is expected to remain strong led by local sales, increasing exports to Afghanistan and the introduction of Mylan drugs. AGPL has recently entered into an agreement with Mylan, one of the world's leading generics and specialty pharmaceutical companies, to market its Hepatitis-C and Cancer treatment drugs in Pakistan. MyHep, a drug of Mylan, was launched in 2016 and is currently contributes to over 5% of the revenue of AGPL. Additional drugs of Mylan are to be launched in the coming years which would enable AGPL to increase its revenue.

AGPL has launched 5 new drugs in 2016 including Myhep (Sofosbuvir), Protégé, Mecovate, Novafof and Cofif, and 5 new drugs during the 6 months ending June 2017 including Briax, All-D, Febuxin, Urgesin and Calfina CR. The launch of new drugs would ensure healthy revenue growth even when older products reach the end of their life-cycle.

The following chart depicts the healthy revenue growth of AGPL over the years and it is expected that with a favourable macroeconomic environment, strong demand for pharmaceuticals and launch of new drugs, revenue growth would be sustained in the coming years.

** Revenue of FY11-FY14 are consolidated accounts of AGP (Private) Limited and AGP Healthcare (Private) Limited.*

2.1.2 Partnership with Mylan (USA)

AGPL entered into a partnership with Mylan N.V. (Global headquarters at Pennsylvania, USA) in 2015 under which AGP is able to sell Mylan products under license in Pakistan whereby the products are imported in finished form and are marketed by AGPL. In accordance with this agreement, AGPL has launched MyHep in March 2016 and will be launching cancer treatment drugs in the coming years. The agreement with Mylan is valid till year 2021 and will most probably be extended. AGPL could also consider manufacturing the drugs locally at a later stage once a strong market for Mylan drugs is developed.

Mylan is one of the largest generics and specialty pharmaceutical companies in the world, manufacturing and marketing more than 7,500 different products with total turnover close to USD10bn.¹ It is a vertically integrated company, manufacturing Active Pharmaceutical Ingredients as well as finished drugs, with a vast manufacturing network of over 40 sites spread across North America, Europe, Japan, Australia and India, among others. Mylan's manufacturing and supply network caters to over 145 countries across the world.

Mylan's large scale of operation and manufacturing capabilities has enabled it to become a leading supplier of antiretroviral therapy, medications that treat HIV (Human Immunodeficiency Virus). By reducing the cost of therapy, Mylan has made antiretroviral therapy accessible for patients in the most remote parts of the world. Today, over 40% of the total patients worldwide, in need of antiretroviral therapy are being treated by Mylan's products².

AGPL has plans to grow Mylan's business with an objective to reach net sales of around PKR 2,000mn in the next 5 years. They plan to do so by aggressively registering and launching Mylan products in Pakistan, in the most important therapeutic areas including Hepatitis, Cancers, HIV, Women Health, Cardio Vascular and Diabetes. Altogether, these areas represent about USD 460 mn of sales, amounting to 18% of Pakistan Pharmaceutical market.³

2.1.3 Launch of MyHep (Sofosbuvir)

Sofosbuvir is one of the new direct-acting antiviral drugs that target different steps of the hepatitis-C virus (HCV) lifecycle. It is a nucleotide analogue HCV polymerase inhibitor, meaning it blocks the polymerase enzyme which the virus must use to reproduce.

AGP has launched MyHep (Sofosbuvir); a product of Mylan, in Pakistan in March 2016 plans to launch other variants of the drug in the next 2 years. MyHep has already become a star product of the Company, contributing 5% of the revenue (please refer to section 4.3), and is forecasted to be a major revenue contributor.

2.1.4 Foreign Affiliations

AGPL is amongst the very few groups of companies in Pakistan, which specializes in developing strategic alliances with reputed international firms. AGPL has affiliations with leading pharmaceutical companies such as Dr. Kade (Germany), GlaxoSmithKline (United Kingdom), Vifor / OM Pharma (Switzerland), Mylan (USA) etc. In 2015, AGPL formed a strategic alliance with Mylan USA to promote their complete portfolio in Pakistan and has recently begun marketing their products.

2.1.5 State-of-the-art Manufacturing Facility

AGPL has an up to date manufacturing facilities which are cGMP (Common Good Manufacturing Practice) compliant. The standard operating procedures in place have been developed by working closely with the technical support staff of principals and are constantly updated in line with the changes in the local and international regulatory requirements. All machines, equipment and processes are validated to ensure consistency of production standards and must complete a comprehensive program of installation, operation and performance qualification before starting regular operation.

The facilities hold drugs manufacturing license and ISO 9001:2008 certification from the Ministry of National Health Services Regulations & Coordination, Pakistan and SGS United Kingdom Limited Systems & Services Certification, respectively. Furthermore, AGPL has been regularly audited by our foreign principals in the past many years leading to a continuous improvement in process. GSK conducted the last audit of AGPL Plant-1 facilities in April 2015. They concluded that AGPL exhibits an adequate level of Good Manufacturing Practices (GMP) compliance for the market AGP supplies.

2.1.6 Established Distribution Network

AGPL has a strong foothold across the country through a comprehensive access to 32,400 pharmacies in Pakistan through Muller & Phipps Pakistan (Private) Limited (“M&P”). M&P is the largest Pharmaceutical distributor in Pakistan with information systems, warehousing and network outreach, that is next to none. M&P is also a strategic investor of AGPL, holding 18.9% shareholding the Company.

2.1.7 Non-Cyclical Business

The pharmaceutical business is non-cyclical in nature with the demand for drugs remaining almost consistent and in line with growth in population, per capita income and urbanization.

2.1.8 Pricing

The Drug Pricing Policy allows price increase of scheduled drugs upto 50% of inflation and for unscheduled drugs up to 70% of inflation. However, the export market is exempted from this policy which provides the Company an opportunity to price its products as per the export destination sector dynamics. Prior to 2015, pharmaceutical companies were not allowed to increase prices, therefore, the current policy of increasing prices as a percentage of inflation is a much needed relief for pharmaceutical companies. However, the export market is exempted from this policy which provides the Company an opportunity to price its products as per the export destination sector dynamics.

2.1.9 Focus on Research & Development

Research & Development is key to success of any manufacturing concern particularly in the pharmaceutical industry. AGPL has set-up an up to date R&D facility, which is monitored and upgraded on a continuous basis. The R&D facility employs highly trained and capable human resource. Through this facility, the Company is able to develop the formulations of the new products that the company is planning to launch. The facilities are also used to improve the formulations of existing product in line with any new international development/ regulatory requirements.

Keeping in line with the vision, AGPL has collaborated with several multinational companies as manufacturer and authorized marketing agent in Pakistan. These companies include Eli-Lilly USA, Dr. Kade Germany, Vifor/OM Pharma Switzerland, UCB Belgium and Osmopharm Switzerland to name a few. These companies have contributed in technology transfer and development of knowledge base of the staff at AGPL.

AGPL's R&D facility has developed local formulation of several products like Ceclor, Osnate, Keflex, Rigix, Anafortan, Chymoral etc. which are now the flagship brands of the Company.

2.1.10 Experienced and Dedicated Management

The Board of AGPL is chaired by Mr. Tariq Khan who brings along with him an experience of over 16 years in the Pakistani pharmaceutical sector. Since 2006, Mr. Tariq has overseen five successful acquisitions/strategic alliances with reputed international firms.

Mr. Tariq's exemplary leadership skills and consistent focus on delivering customer value led OBS Group from being placed at 58th position amongst Pakistani pharmaceutical companies in 2006 to one of largest pharmaceutical conglomerates in Pakistan – the group now ranks 9th⁴ amongst all pharmaceutical companies in Pakistan.

AGPL is headed by Ms. Nusrat Munshi since July 2009; she has positioned the Company at the forefront amongst its larger and more established peers, in terms of efficiencies and profitability. Under her leadership, AGPL has seen stable growth in the top line while improving the performance ratios of the Company in a challenging and inflationary environment. As a result of her efforts to improve company efficiency, financial performance has improved remarkably, the Company's revenue grew from PKR 2bn in 2009 to PKR 4.2 bn in 2016. She successfully steered the Company during the critical process of change in ownership in 2014, after which the Company has emerged much stronger vision with focus on long term horizon and support of the new shareholder.

2.1.11 Shariah Compliance

Company has been declared as Shariah compliant Company by Meezan Bank Limited on Audited Financial Statements as at March 31st, 2017. For Shariah Compliant certificate, refer to section 5.1.

2.1.13 Justification

Based on their review, the Consultant to the Issue is of the opinion that the historical performance of the Company, the sponsor's profile, quality of management and strong product portfolio indicate sustainability of business performance in the future.

Furthermore, with increasing focus on healthcare and continued improvement in the healthcare sector, the Company is sitting in a position to take advantage of the increasing healthcare expenditure in the country. Within 3 working days from the close of the Bidding Period, a Supplement to the OFSD will be published in at least all those newspapers in which the OFSD is published. Format of the Supplement is given on page 3 of this OFSD.

2.2.2 Types of Bids and Procedure for Making a Bid

Book Building is a process whereby investors bid for a specific number of shares at various prices. The Offeror's set a Floor Price which is the minimum / lowest price a bidder can bid at. An order book of bids is maintained by the Book Runner, which is then used to determine the Strike Price through the "**Dutch Auction Method**".

Under the Dutch Auction Method, the Strike Price is determined by lowering the Bid Price to the extent that the total number of shares offered through the Book Building process are subscribed.

A bid by a bidder can be a "**Limit Bid**", or a "**Step Bid**", which are explained below:

- **Limit Bid:** Limit bid is at the limit price, which is the maximum price a bidder is willing to pay for a specified number of shares.

In such a case, a Bidder explicitly states a price at which he / she / it is willing to subscribe to a specific number of shares. For instance, a Bidder may bid for 1 million shares at PKR 82.00 per share. In such a case the total application money would amount to PKR 82 million. Since the Bidder has placed a limit of PKR 82.00 per share, this indicates that he / she / it is willing to subscribe the shares at or below PKR 82.00 per share.

- **Step Bid:** A series of limit bids at increasing prices. The amount of any individual step shall not be less than PKR 1,000,000.

Under this bidding strategy, Bidders place a number of Limit Bids at different increasing price levels. A Bidder may, for instance, make a bid for 0.50 million shares at PKR 80.00 per share, 0.40 million shares for PKR 81.00 per share and 0.30 million shares for PKR 82.00 per share. The Bidder has placed one Step Bid comprising three Limit Bids at increasing prices. The Bid amount would be PKR 97.00 million. In case of Individual Investors, the Margin Money will be 100% i.e. PKR 97.00 million whereas in case of Bidders being Institutional Investors the Margin Money shall be 25% of the Bid amount i.e. PKR 24.25 million.

2.2.3 Mechanism for Determination Strike Price

1. At the close of the bidding period, the Strike Price shall be determined on the basis of Dutch Auction Method by the System. Under this methodology, the Strike Price is determined by lowering the price to the extent that the total number of shares offered are subscribed.

3. In case all bids made above the Strike Price are accommodated and shares are still available for allotment, such available shares will be allotted against the bids at the Strike Price strictly on time priority basis.

The mechanism for determination of the strike price can be understood by the following illustration:

1. **Number of shares being Offered through the Book Building:** 35,000,000 Ordinary Shares
2. **Floor Price:** PKR 80/- per share
3. **Bidding Period:** From November 08, 2017 to November 09, 2017
4. **Bidding Time:** 9:00 am - 5:00 pm
5. **Bidding Revision Time (Upward Revision Only):** 9:00 am - 5:00 pm on all days

Bidder	Price (PKR per share)	Quantity (shares Millions)	Cumulative Number of Shares (mm)	Category of Bid	Date
Institution - A	88.0	4	4	Limit Price	Day 1
Institution - B	86.5	4	8	Limit Price	Day 2
Foregin Institution - F	86.0	3	11	Limit Price	Day 2

HNWI - A	82.0	2	47	Step Bid	Day 2
Institution - C	81.9	1	48	Step Bid	Day 1

On the basis of the figures provided in the above illustration, according to the Dutch Auction Method, the Strike Price would be set at PKR 84.90 per share to sell the required quantity of 35,000,000 ordinary shares.

- At PKR 88.00 per share, investors are willing to buy 4.00 million shares. Since 31 million shares are still available, therefore the price will set lower.
- At PKR 86.50 per share, investors are willing to buy 4.00 million shares. Since 27 million shares are still available; therefore, the price will set lower.

- At PKR 86.00 per share, investors are willing to buy 3.00 million shares. Since 24 million shares are still available; therefore, the price will set lower.
- At PKR 85.20 per share, investors are willing to buy 3.00 million shares. Since 21 million shares are still available; therefore, the price will set lower.
- At PKR 85.10 per share, investors are willing to buy 5.00 million shares. Since 16 million shares are still available; therefore, the price will set lower.
- At PKR 85.00 per share, investors are willing to buy 4.00 million shares. Since 12 million shares are still available; therefore, the price will set lower.
- At PKR 84.90 per share, investors are willing to buy 13.00 million shares. Since after bidding for 13.00 million shares at PKR 84.90 per shares no share will be available, therefore, the Strike Price will be set at PKR 84.90 per share for the entire lot of 35 million shares.
- The Bidders, who have placed bids at prices above the Strike Price (which in this illustration is PKR 84.90 per share), will become entitled for allotment of shares at the Strike Price and the differential would be refunded.
- The Bidders, who have placed bids below PKR 84.90 per share, will not qualify for allotment of shares and their money would be refunded.
- In case bids received at the Strike Price exceeds the number of shares to be allocated under the Book Building, then preference will be given to the Bidders strictly on time priority basis.

For online transfer the payment shall be made into **A/C # 0934138811010735** being maintained at MCB Bank Limited, Global Transaction Banking Branch, Karachi with the Account Title "Offer for Sale of AGP Limited – Book Building". Once the shares allocated under the retail portion have been credited, the Consultant to the Issue, after obtaining NOC from PSX, may request in writing to the Collection Bank for transfer of the money of successful and accepted applications to the Offerors' accounts.

The payment procedure for a "Limit Bid" or "Step Bid" are explained below:

▪ **PAYMENT FOR LIMIT BID**

If investors are placing their bids through "Limit Bid" then they shall deposit the Margin Money based on the number of shares they are bidding for at their stated Bid Price.

For instance, if an investor is applying for 1 million shares at a price of PKR 80.00 per share, then the total application money would amount to PKR 80 million. In such a case, (i) Individual Investors shall deposit PKR 80 million in the Book Building account as the bid amount which is 100% of PKR 80 million; and (ii) Institutional Investors shall deposit at least PKR 20 million in the Book Building account as the Margin Money which is 25% of PKR 80 million.

▪ **PAYMENT FOR STEP BID**

If an investor is placing a "Step Bid", which is a series of Limit Bids at increasing prices, then he / she / it shall deposit the Margin Money / bid money based on the total number of shares he / she / it is bidding for at his / her / its stated Bid Prices.

For instance, if the investor bids for 0.50 million shares at PKR 80.00 per share, 0.4 million shares at PKR 81.00 per share and 0.3 million shares at PKR 82.00 per share, then in essence the investor has placed one Step Bid comprising three limit bids at increasing prices. The application money would amount to PKR 97 million, which is the sum of the products of the number of shares bid for and the Bid Price of each limit bid. In such a case (i) Individual Investors shall deposit PKR 97 million in the Book Building Account as bid amount which is 100% of PKR 97 million and (ii) Institutional Investors shall deposit at least PKR 24.25 million in the Book Building Account as Margin Money which is 25% of PKR 97 million.

2.2.17 Payment by Foreign Investors

The shares issued to non-resident shareholders shall be intimated by the Company to the designated Authorized Dealer, along with the documents prescribed in the Manual within 30 days of the Offer.

Bidders shall be allowed to place bids for One Hundred Percent (100.00%) of the Issue size and the Strike Price shall be the price at which One Hundred Percent (100.00%) of the Issue is subscribed. Once the Strike Price is determined, all those Bidders whose bids have been found successful shall be provisionally allotted 75.00% of the Offer size i.e. 26,250,000 Ordinary Shares.

In order to be a successful Bidder in the Book Building process, the bid price would either be higher than the strike price or at the strike price.

For allocation of shares via Book Building, priority shall be given to the bids placed at the highest price. The bidders, who have made bids at prices above the Strike Price, will be provisionally allotted 75.00% of the shares successfully bid for, at the Strike Price. The differential between the Bid price and Strike Price would be refunded based on the total number of shares bid for.

Bidders who had placed Bids at the Strike Price will be provisionally allotted Seventy-Five (75.00%) of the shares successfully bid for, at the Strike Price, strictly on time priority basis. Bids made below the Strike Price shall not qualify for allotment of shares and their Margin Money will be refunded.

In the event the retail portion is undersubscribed, the unsubscribed portion would be allotted to the successful bidders on a pro-rata basis. Any excess funds after subscription of the unsubscribed portion would be refunded to the bidders.

Final allotment of shares out of the Book Building portion shall be made after subscription of the retail portion and receipt of full subscription money from the successful Bidders; however, shares to such Bidders shall be transferred simultaneously with the transfer of shares to retail investors, in the form of book-entry to be credited in their respective CDS accounts. All the Bidders shall, therefore, provide number of their CDS Account in the Bid Application as per Regulation 9(16) of the PO Regulations.

4 OVERVIEW, HISTORY AND PROSPECTS OF THE COMPANY

4.1 COMPANY OVERVIEW

AGP limited (“AGPL”) comprises of two plants, which previously operated as two separate companies namely AGP (Private) Limited (“AGPPL”) and AGP HealthCare (Private) Limited (“AGPHC”). These companies were acquired by a consortium led by OBS Pakistan (Private) Limited through an SPV namely Appollo Pharma Limited (“APL”) in July 2014 and AGP Limited (Formerly Appollo Pharma Limited) was created subsequent to merger/ amalgamation of AGPPL and AGPHC with and into APL in December 2015. APL was subsequently renamed to AGP Limited.

AGPPL was originally Pakistan Vitamin Products (Private) Limited (“PVPPL”) which was incorporated on December 12, 1957. The company was initially engaged in the manufacturing of multi vitamins and started its pharmaceutical manufacturing business in 1989. Subsequently, the name of the company was changed to Ali Gohar Pharmaceutical (Private) Limited on September 2, 1991 and was later changed to AGP (Private) Limited on January 2, 2003.

AGPHC was originally incorporated as Sima Laboratories Limited on January 15, 1951 and was subsequently renamed to Eli Lilly Gohar (Private) Limited on February 10, 1986. The company was later renamed to AGP Healthcare (Private) Limited on February 23, 2012.

AGPL has grown steadily through manufacturing and marketing products under licensing arrangements with many companies of international repute and simultaneously through manufacturing and marketing its own brands. Today, AGPL is one of the largest pharmaceutical companies in Pakistan, providing a broad range of pharmaceutical services. AGPL specializes in manufacturing, marketing and sales of pharmaceutical & healthcare products licensed from reputable European and American multinational pharmaceutical companies in the domestic and export market. The delivery of AGPL’s products, across the country, is managed by Muller & Phipps Pakistan (Private) Limited, with one of the largest and state of art distribution set-ups in Pakistan.

After the acquisition by OBS, there was a focus on growth, efficiencies and productivity due to which significant improvements have been made in the business. AGPL’s revenue has increased from PKR 3,338 mn in 2014 to PKR 4,206 mn in 2016 with profit of PKR 1,087mn (please refer to section 5.4). The current management of AGPL is highly experienced and most of the team has been associated with the company for a number of years (please refer to section 6.6).

4.1.1 Details of Acquisition

In July 2014, OBS Pakistan (Private) Limited through an SPV, acquired AGPPL and AGPHC for a total consideration of 6,912,500,000. At the time of acquisition both companies were not associated companies of OBS Pakistan (Private) Limited or any of its group companies. The acquisition was fully paid in cash and routed through proper banking channels with approval from State Bank of Pakistan. The details of the acquisition price paid to the sponsors of AGPPL and AGPHC is as follows:

Total Acquisition Price of AGPPL	100%	6,843,375,000

4.1.2 Relationship between the Acquirer, Acquired Companies and the Seller

- (a) At the time of acquisition of AGP (Pvt.) Limited and AGP Health Care (Pvt.) Limited by Appollo Pharma Limited, AGP (Pvt.) Limited, AGP Health Care (Pvt.) Limited and Pharmonte (Pvt.) Limited were not associated companies of OBS Pakistan (Pvt.) Limited, OBS Health Care (Pvt.) Limited, West End 16 Pte. Ltd and/or any of their associated companies or undertakings, and,
- (b) Mr. Tariq Khan, Mrs. Adeela Tariq Khan and/or any relative, OBS Pakistan (Pvt.) Limited, OBS Health Care (Pvt.) Limited, West End 16 Pte. Ltd and/or any of their associated companies or undertakings were not beneficiaries of the sale proceeds of shares held in AGP (Pvt.) Limited in the name of Pharmonte (Pvt.) Limited, AG Zurich Switzerland (Please refer to section 5.2).

4.1.3 Calculation and Recognition of Goodwill

The Goodwill on the balance sheet of AGPL is due to the acquisition of AGPPL at a price that was higher than its Net Asset Value. The justification for the higher acquisition price was the value of brands acquired along with the businesses. The main value of a pharmaceutical company is strength and recognition of its brands; AGPL owns rights of international brands such as Ceclor, Rigix, Keflex, Kefzol and Nebcin apart from many other home grown generic brands with a strong footing such as Osnate, Anafortan, Spasler, Rubifer, Urso, Chymoral etc.

At the time of acquisition of AGPPL and AGPHC, OBS Pakistan (Pvt.) Limited engaged Ernst & Young Ford Rhodes Sidat Hyder (EY) to carry out a review of valuations of intangible assets in light of IAS 38 – Intangible Assets and IFRS 3 – Business Combinations. EY employed Income approach, Relief from Royalty Method (RFRM), for valuing the trademarks. RFRM is based on the concept that if a company owns a trademark, it does not have to ‘rent’ one thus the owner is ‘relieved’ from paying royalty. Amount of theoretical payment is used as a surrogate for income attributable to these trademarks. The independent advisory firm ascertained the value of the intangibles as PKR 4,701,522,385.

Goodwill on the Acquisition of AGPPL	
Acquisition Price	PKR 6,843,375,000
Less: Net Assets as on Acquisition date	PKR 1,458,802,634
Goodwill	PKR 5,384,572,366

The carrying amount of Goodwill is reviewed at the end of each financial year audit date to determine whether there is any indication of impairment. Impairment testing of Goodwill was last conducted by Shekha & Mufti, Chartered Accountants on 31st December 2016 and no impairment was recorded. Considering the growing revenue streams from the brands acquired, it is unlikely that the Goodwill would be impaired anytime soon.

- Streamlining of man/ material/ process flows to increase efficiency
- Installing high speed machines with superior technology
- Increasing the capacity of its state-of-the-art quality lab to cater the increase in regulatory requirements of domestic and export markets.

Continuous plant upgradation is integral to ensure future business expansions which shall contribute up to PKR 500 million to the topline by 2022. The total cost of this upgradation is PKR 573 mn and is expected to be completed by 2018. Furthermore, these upgrades are vital to keep up with the local and export regulatory requirements and to enhance operational efficiencies.

4.7.2 Capital Expenditure on Plant 2

AGPL is also in process of increasing the capacity of its second manufacturing facility which is being financed through internal cash generation. This facility manufactures Cephalosporin (Beta-Lactam Antibiotics) is being upgraded in order to increase its capacity, expand infrastructure and bring about technological advancement. The capacity of the warehouse is also being increased in order to keep up with the continuous increase in product sales. This expansion would enhance the capacity of the powder filling line from 25,000 bottles/day to 55,000 bottles/day.

Ceclor and Keflex, two of the major contributors to the Company's revenues, are exclusively manufactured at this plant. With the upgradation, contribution shall resultantly increase and as currently positioned, Ceclor shall become a "Billion Rupee" brand by year 2020.

With almost a year of experience with nutraceutical products, AGPL has witnessed a contribution to top line of around PKR 63 mn from the sale of products such as Novafol, Cofif Syrup range and All-D Drops. This contribution is projected to increase in light of the launch of new products and growth of existing products.

Owing to fairly good reputation of locally produced pharmaceuticals, the national pharmaceutical products are registered and exported to Far East, South East Asia, and African and Middle Eastern countries. Pharmaceutical exports have crossed USD 200 mn and have been growing at a 5 year CAGR of 11% p.a.¹⁰

Though the country meets around 70-80% of its medicine needs locally, only a few companies are manufacturing Active Pharmaceutical Ingredients (APIs) in Pakistan (due to substantial cost of setting up R&D facility, continuous cost of test runs to achieve 1) required yields, 2) required stability, 3) required purities and, 4) required characteristics. Thus, majority of pharmaceutical companies are dependent on European, Japanese, Korean, South American & Southeast Asian manufacturers for requirements of APIs for their products. As most of the APIs are

available from at least 3-4 suppliers, prices are kept under check. The pharmaceutical industry imports approximately 80-90% of all raw materials.

In terms of quality and efficacy, locally manufactured drugs from top 50 companies are well regarded as these manufacturers are following Good Manufacturing Processes (GMPs). Local pharmaceuticals are expected to increasingly dominate the market and the presence of MNCs will reduce further; currently the Local to MNC sales ratio is 66:34 and is expected to move to 70:30 within the next 5 years.

4.14.1 Drug Pricing

Under the Drug Pricing Policy 2015, the maximum retail price is monitored and to be calculated using a pre-set formula. Under the said policy Drug manufacturers can only increase prices in line with CPI of the preceding year as per the following formula:

- Scheduled Drugs: 50% of CPI
- Non-Scheduled Drugs: 70% of CPI
- Low-cost drugs: 100% of CPI

For imported drugs, a margin of 35% is allowed on the landed cost of the drug. Maximum retail Price (MRP) is calculated by grossing up trade price to provide for retail discount at 15%. The Authority and the provincial health authorities monitors MRPs of all the drugs to ensure that drugs are not sold in market on MRPs higher than fixed under this Policy.

4.14.3 Sector Outlook

It has been witnessed by the domestic pharmaceutical industry that with increase in GDP and per capita income, the customers that are able to afford organized healthcare have increased over the years. This is very important and advantageous for a company like AGP whose strength is its well diversified product range.

In the Federal government budget 2016-2017, the customs duty on Raw Materials of Pharmaceutical goods was reduced from 5% to 3%. Since raw materials imports are significant, this change has proved to be beneficial to industry competitiveness.

Free Trade Agreements have been signed with several countries recently to boost Pharmaceutical exports. The government has also given incentives like exemption from price controls on exporting to developed countries. A combination of favorable government policies and stability in the country can lead to much higher export volumes.

Rising life expectancies in Pakistan is expected to increase demand for pharmaceutical products in the country and this industry alone has the potential to lead the country to economic prosperity.

The sector is expected to perform well due to the following factors:

- Increasing government spending on healthcare
- Urbanization and growth in per capita income
- Economic well-being of the country

Valuations of the sector which apparently seem stretched are a reflection of the impressive sector growth record, which is likely to be sustained going forward. Additionally pharmaceutical companies are also gearing up for accreditation by various international bodies, such as WHO, FDA and PIC/S, which will open up the export avenue towards developed countries where there are stringent quality control requirement/standards.

4.15 RISKS

4.15.1 Business Risk

The pharmaceutical business is a highly sensitive business and structural / operational failure is always a significant risk.

4.15.2 Default Risk

This risk is related to the Company's ability to meet its short term and long term obligations including service of its debt obligations.

4.15.3 Interest Rate Risk

High interest rates may affect the Company's cost of funding adversely thus leading to decline in profitability.

4.15.4 Human Resource Risk

Increasing competition for skilled human resources may lead to high turnover causing deterioration in service standards or increased payroll situation, or both.

4.15.5 Under Subscription Risk

This is the risk that the public offer may get under-subscribed on account of lack of investor's interest.

4.15.6 Physical Damage Risk

AGPL has two plants that are at risk of physical damage due to national disasters; however, they are comprehensively insured.

4.15.7 Regulatory Risk

Regulatory risks are present in the form of lax policy responses from the government leading to continuing counterfeiting and smuggling of drugs as well as pressure from regulated pricing.

4.15.8 Risk of Economic Slowdown

Economic slowdown could potentially affect health sector allocations as well as shift focus from the need to initiate pharmaceutical sector reforms.

4.15.9 Counterfeit and Smuggled Products

Presence of counterfeit as well as smuggled drugs is a threat, particularly for the generic product category.

4.15.10 Inflation Risk

Higher inflationary pressure may result in decline in sales as increase in the prices of medicines might not be acceptable to consumers due to difficulty of affordability.

4.15.11 Risk of Entrance of New Players

The barriers to entry can reduce to lower levels by the formation of DRAP as access to licensing can provide ease for new entrants in terms of registration and licensing.

4.15.12 Capital Market Risks

Price of shares will depend on the stock market behavior and performance of the company; hence, price may rise or fall and result in increase or decrease in the value of the shares.

4.15.13 Foreign Exchange Risk

Adverse foreign exchange movement .i.e. PKR depreciation will inflate the price of imports thus affecting the profitability of the Company.

4.15.14 Raw Material Supply / Price Risk

Adverse price movement or non-availability of raw materials may deter smooth production.

4.15.15 Competitor Risk

Competition from business competitors may create a hostile environment for the Company and result in business loss.

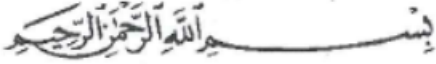

NOTE: IT IS STATED THAT ALL MATERIAL RISK FACTORS HAVE BEEN DISCLOSED AND THAT NOTHING HAS BEEN INTENTIONALLY CONCEALED IN THIS RESPECT.

7.13 INSPECTION OF DOCUMENTS AND CONTRACTS

Copies of the Memorandum and Articles of Association, the Audited Financial Statements, the Auditor's Certificates, Information Memorandum and copies of agreements referred to in this OFSD may be inspected during usual business hours on any working day at the registered office of the Company from the date of publication of this OFSD until the closing of the subscription list.

7.14 LEGAL PROCEEDINGS

The company litigations / proceedings are as follows:

- During the year ended 31 December 2014, the Company imported an active pharmaceutical material namely Ossein Mineral Complex (OMC) which is exempt from sales tax. Customs duty and advance income tax have been paid at applicable rates by the Company on the import. No discrepancy and irregularity was made out against the Company at the time of release of its consignments of OMC. However, after the release of its consignments the tax authorities made demand of short-paid duties and taxes which includes 30% custom duty, 17% sales tax and 5% advance income tax on the imported value, amounting to Rs.2.559 million, without issuing any show cause notice. The Company has filed a petition before the Court which is pending adjudication. No provision has been made by the Company in this respect as the Company, in view of a tax advice, expects a favourable outcome of the above matter.
- During the year ended 31 December 2008, the Company imported consignments of Medicines (Multivitamin) against which, it filed goods declaration through their authorized clearing agent. The Company correctly declared the description of goods as medicines and claimed assessment under relevant PCT Code. The Custom Authorities have rejected these assessments and issued demand notices to the Company indicating short levy of duty / taxes. The Deputy Collector of Customs, Air Freight Unit/Jinnah International Airport, Karachi, passed an order against the Company according to which the Company was liable to pay the short paid amount of Rs.1.173 million against the respective consignments / demand notices. The Company filed appeal before the Collectors of Customs, Sales Tax & Federal Excise (Appeals) which was decided in favour of the Company vide order dated 30 October 2009. The Deputy Collector of Customs, Air Freight Unit approached the learned Tribunal, Customs, Central Excise & Sales Tax, Bench, and filed appeal against the said order which was also dismissed and decided in favour of the Company vide order dated 23 December 2010. Thereafter, the Collector of Customs (Preventive) filed the title reference before the Court which is pending adjudication. No provision has been made by the Company in this respect as the Company, in view of a legal advice, expects a favourable outcome of the above matter.
- During the year ended June 30, 2004, a lawsuit of Rs.10 million has been filed by various companies against the Company in the District Court, Sindh, to stop the Company from marketing a brand, which was decided against the Company. However, the Company has filed an appeal in the Court against the decision which is still pending. No provision has been made by the Company in this respect as the Company, in view of a legal advice, expects a favorable outcome of the above matter.
- During the year ended June 30, 2002, a claim amounting to Rs.1.802 million was filed against the Company by the K-Electric Limited on account of low billing carried out by the K-Electric in prior years (i.e. from 1992 to 2000). The Company, thereafter, filed a request with the K-Electric Limited disputing the above-referred claim, which is currently pending with the K-Electric Limited. The management is confident that as a result of its request, the total claim will not exceed Rs. 0.5 million and, hence, provision to this extent was made in the financial statements for the year ended June 30, 2002. Pending finalization of this matter, no provision has been made in the financial statements for the remaining sum of Rs.1.302 million or for any other liability that may arise as a result thereof.
- The Finance Acts, 2015 and 2016 applied super tax at the rate of 3% of the taxable income for the tax years 2015 and 2016, i.e. financial years ended December 31, 2014 and 2015. However, the Company filed a suit with the Court challenging the above tax, which is currently pending adjudication. The Company based on a legal advice, is confident of a favourable outcome, hence no provision for the above tax amounting to Rs. 37.162 million has been made in these financial statements.

10. CASH SHOULD NOT BE SUBMITTED WITH REGISTRATION FORM AT THE BID COLLECTION CENTER.
11. THE BID SHOULD BE SUBMITTED ON THE PRESCRIBED BIDDING FORM ALONG WITH THE REGISTRATION FORM IN PERSON OR THROUGH FAX AT THE NUMBERS MENTIONED IN NOTE 8 ABOVE. REGISTERED INVESTORS CAN ALSO PLACE THEIR BIDS DIRECTLY VIA THE ONLINE PORTAL BY VISITING WWW.BKB.PSX.COM.PK.
12. Bids can be placed at “Limit Bid” or “Step Bid”.

- **Payment for Limit Bid:**

If investors are placing their bids through “Limit Price” then they shall deposit the Margin Money based on the number of shares they are bidding for at their stated bid price.

For instance, a Bidder may bid for 1 million shares at PKR 81.00 per share. In such a case the total application money would amount to PKR 81 million. In this case the Bid Amount will also be PKR 81 million. Since the Bidder has placed a limit of PKR 81.00 per share, this indicates that he / she / it is willing to subscribe at or below PKR 81.00 per share.

- **Payment for Step Bid:**

If investors are placing their bids through “Step Bid” which is a series of limit bid at increasing prices then they shall deposit the Margin Money / Bid Amount based on the total number of shares they are bidding for at their stated bid price. The aggregate amount of step bid shall not be less than PKR 1,000,000/- and the amount of any step shall also not be less than PKR 1,000,000/-.

Under this bidding strategy, Bidders place a number of Limit Bids at different increasing price levels. a Bidder may, for instance, make a bid for 0.50 million shares at PKR 80.00 per share, 0.40 million shares for PKR 81.00 per share and 0.30 million shares for PKR 82.00 per share. Therefore in essence the Bidder has placed one Step Bid comprising three Limit Bids at increasing prices. The Bid amount would be PKR 97.00 million. In case of Individual Investors, the Margin Money will be 100% i.e. PKR 97.00 million whereas in case of Bidders being Institutional Investors the Margin Money shall be 25% of the Bid amount i.e. PKR 24.25 million.

13. The applicant, if Individual Investor, shall submit amount of 100% of the application money as Bid / Margin Money whereas Institutional Investors shall submit not less than 25% of the application money.
14. Book Runner shall not accept or register any new Bidders after **3:00pm during the last day of Bidding Period**.
15. The Bidder can view the color of the book, i.e. bid price and number of shares against each bid price online anytime during the Bidding Period at the following websites: www.psx.com.pk
16. Successful Bidders shall be intimated, within **one (1) day** of the closing of the Bidding Period, the Strike Price and the number of shares provisionally allotted to each of them.
17. Upon intimation by the Book Runner of final allocation, successful institutional bidders shall deposit their balance margin money within **three (3) days** of such intimation, if required, as consideration against allotment of shares.
18. Where a successful Bidder defaults in payment of shares allotted to him, the Margin Money deposited by such Bidder shall be forfeited to the Book Runner.
19. Final allotment of shares out of the Book Building portion shall be made after receipt of full subscription money from the successful bidders; however, shares to such bidders shall be issued only after the end of the public subscription, in the form of book-entry to be credited in their respective accounts. All the bidders shall, therefore, provide number of their accounts.
20. The bidders who have made bids below the Strike Price shall not qualify for allotment of securities and the book runner shall intimate their respective banks for unblocking their Bid Money within **one (1) working day** of the close of the bidding period and the refunds to such bidders shall be made within **three (3) working days** from the close of the bidding period.
21. The bid money of bidders who have undertaken to subscribe the unsubscribed retail portion shall remain deposited or blocked till allotment of unsubscribed retail portion, if any, to them on pro-rata basis.
